Information to Help You Stay On Track If Your Insurance Changes

Insurance changes may affect whether your insurance plan covers GOMEKLI® (mirdametinib). This Guide explains Open Enrollment and provides tips and other helpful information during an Open Enrollment Period, or if you experience changes in your insurance coverage for GOMEKLI.

What Is Open Enrollment?

Open Enrollment marks the time of year where you may enroll in, renew, or make changes to your health insurance through the Marketplace or your employer for the coming year.¹

Helpful Tips

During Open Enrollment Periods, after any changes in employment or insurance coverage status, it is important to take appropriate steps as outlined through your health plan or employer to ensure continuity of active insurance status

If your insurance changes, make sure to promptly:

1. Verify your coverage
2. Check when prior authorizations need to be renewed or are required
3. Provide new insurance information to your pharmacy

Pages 3 and 4 of this Guide provide sample questions regarding prescription drug coverage and associated costs to consider asking when evaluating health plan options

For both Marketplace health plans and employer-sponsored health plans, you may be eligible to enroll in or make changes to your plan outside of the Open Enrollment period if you experience a **qualifying life event**. Qualifying life events may include, but are not limited to, a loss of health coverage, turning 26 and losing coverage through a parent's plan, getting married or divorced, having a baby, changes in your residence, and changes in your income.² Always check your specific plan for rules and requirements regarding Open Enrollment or changes to your plan.

SpringWorks CareConnections® is only a phone call or website visit away, and is available to help you with questions you may have regarding your insurance coverage and GOMEKLI

Sample Coverage Questions to Ask Your Health Plan

If you are renewing or changing your health insurance, coverage details may change. This worksheet provides examples of coverage questions to consider asking if you are evaluating health plan options:

Is GOMEKLI® (mirdametinib) covered under the plan?

When a medication is covered, it means that your health plan will help pay for the cost. Confirming coverage for GOMEKLI can help you understand how your health plan may pay for your medication.

Are there any restrictions on how GOMEKLI is covered?

Health plans may have certain restrictions on how medications are covered. This may include trying another medication before GOMEKLI, which is called step therapy, or having limits on the quantity of GOMEKLI that your pharmacy can dispense.

Does the health plan require a Prior Authorization (PA) or PA renewal for my GOMEKLI medication?

Prior authorization is a process where your doctor's office requests approval from your health plan for your GOMEKLI prescription to be covered.¹ Prior authorizations often need to be renewed each year or as outlined by the insurance plan.

Is the doctor who prescribes my GOMEKLI treatment in-network for the health plan?

Health plans will contract with certain doctors to be a part of their network. While you may be able to see doctors who are outside your network, it may require you to pay more out of pocket and/or require additional insurance approval.²

Sample Cost Questions to Ask Your Health Plan

This worksheet provides examples of cost questions to consider asking if you are evaluating health plan options:

What is the annual deductible for prescription drug coverage?

Your deductible is how much you pay in total each year before health insurance cost sharing begins.¹ Understanding what your deductible is will help you find out when your health plan will help pay for your GOMEKLI® (mirdametinib) prescription.

How much will I pay for my GOMEKLI? What is my copay/coinsurance?

After you meet your deductible, your out-of-pocket cost for GOMEKLI may be a copay, which is a flat fee, or coinsurance, which is a percentage-based payment.¹ Understanding what the cost of your GOMEKLI prescription would be can help you choose the right health plan for you.

What is my annual out-of-pocket maximum for prescriptions?

Many health plans will include an out-of-pocket maximum, which is the most that you will be asked to pay for your medications. Once you have spent this amount, your health plan should pay for 100% of the rest of the costs of covered medications for that plan year.²

Will assistance from the SpringWorks CareConnections® Commercial Copay Program count toward deductibles?

Some health plans may have restrictions, called accumulator or maximizer programs, that may prevent assistance from the Commercial Copay Program from counting toward your deductible.³

Glossary of Key Terms

The following definitions may help explain key terms that may be used to describe coverage and the costs associated with a health plan.

Understanding Coverage Terms

- **Formulary:** A list of prescription medications that are covered by your health plan¹
- **Open Enrollment Period:** The time of the year when people who have not experienced a qualifying life event can enroll in, renew, or change their health plan. Please note, health insurance through your employer may have different Open Enrollment Periods²
- **Prescription drug coverage:** Health plan that helps you pay for your prescription medications³
- **Prior authorization (PA):** A process where your doctor's office requests approval from your health plan for your prescription to be covered⁴
- **Qualifying life event:** A change in your life situation that allows you to enroll in a health plan outside of the yearly Open Enrollment Period. Qualifying life events may include a loss of health coverage, changes in your household, changes in your residence, and more⁵
- **Specialty pharmacy:** A pharmacy that manages the dispensing of specialty medications, like GOMEKLI® (mirdametinib)⁶
- **Step therapy:** A process where health plans require patients to try one or more alternative medications before they can access the treatment originally prescribed by their doctor⁷

Understanding Cost Terms

- **Coinsurance:** Percentage-based payments for medical care or prescription medications instead of flat fees. You would pay the coinsurance plus any deductibles you may owe⁸
- **Copay:** What you pay out of pocket (OOP) for medical care or prescription medications. The amount will vary by the type of service or medication⁸
- **Cost sharing:** Your share of costs that you must pay OOP for services or prescription medications that your health plan covers (eg, copays, deductibles, coinsurance)⁸
- **Deductible:** How much you pay in total each year before health insurance cost sharing begins⁸
- **Out-of-pocket costs:** Your costs for medical care that are not reimbursed by your insurance plan, including deductibles, coinsurance, and copays for both covered and noncovered services and medications⁹
- **Premium:** How much you pay each month for health insurance¹⁰

SpringWorks CareConnections®

Is Here to Help

What Is SpringWorks CareConnections?

SpringWorks CareConnections is a free, personalized patient support program to help you navigate your insurance coverage, answer questions about your treatment, and help you start and stay on track with GOMEKLI® (mirdametinib). Whether you're renewing your health plan or switching coverage, we're committed to helping support you through your treatment journey.

What if GOMEKLI Isn't Covered by My Health plan?

- We do not want concerns about cost or insurance coverage to come between you and your medication
- Our team of Nurse Advocates are here to provide information about financial assistance options that may be available, as well as explain your insurance coverage for GOMEKLI

- Our team can help you learn about and navigate appeal processes, and provide information about SpringWorks CareConnections programs that may be available to help you receive treatment if you experience a gap in your insurance coverage for GOMEKLI

Patient Assistance Program (PAP)

- If you are uninsured, lack coverage for GOMEKLI, or are experiencing financial hardship, the Patient Assistance Program may help you obtain GOMEKLI at no cost*

*Terms and conditions apply. PAP eligibility criteria and annual household income limits apply. Full terms and conditions provided during enrollment process and are available upon request by contacting SpringWorks CareConnections at 844-CARES-55 (844-227-3755).

Actor portrayals

Financial Support May be Available to Help You Save on GOMEKLI® (mirdametinib)

Commercial Copay Program*

If you have commercial health insurance, you may pay as little as a \$0 copay per 21-day supply of GOMEKLI with the Commercial Copay Program

- SpringWorks CareConnections® may also help with eligible out-of-pocket costs for certain treatment-related tests, examinations, and/or specialty visits during treatment with GOMEKLI
- To learn more about the program and to enroll, visit www.gomeklicopay.com

*Terms and conditions apply. PAP eligibility criteria and annual household income limits apply. Full terms and conditions provided during enrollment process and are available upon request by contacting SpringWorks CareConnections at 844-CARES-55 (844-227-3755).

Temporary Free Medication Programs for Eligible Patients

These programs may help you if you are experiencing coverage delays or interruptions:

THE QUICK START PROGRAM

Eligible commercially insured patients who experience a qualified delay in their insurance coverage can get started on GOMEKLI at no cost for a limited period of time†

THE BRIDGE PROGRAM

Eligible commercially or government-insured patients currently on GOMEKLI who experience a qualified lapse in their insurance coverage may qualify to receive GOMEKLI at no cost for a limited period of time†

†Terms and conditions apply. Full terms and conditions provided during enrollment process and are available upon request by contacting SpringWorks CareConnections at 844-CARES-55 (844-227-3755).

Talk to your doctor or call one of our Nurse Advocates to learn more about the Quick Start Program if your insurance coverage is delayed, or the Bridge Program if you experience a gap in your insurance coverage

SpringWorks CareConnections® Can Help You Stay on Track With GOMEKLI® (mirdametinib)

At SpringWorks, we understand that insurance changes can be overwhelming and cause uncertainty. **SpringWorks CareConnections is here** to support you on your journey with GOMEKLI.
